Introduction

In this comprehensive two week programme, both strategic leaders and first line professionals will participate in how to develop, implement and structure the changes necessary to make a new strategy, vision or mission work effectively in today's dynamic climate.

Week one focuses on the development of the core strategies and plan to make the organization reach its vision or targets, while week two drills deeper into the organization to develop techniques that get the workforce "on-board" with the changes and have them participate in working out the problems and implementing the new strategies. It is strongly suggested that strategic leaders attend both weeks.

Effective strategic leadership is central to the future success of any organisation. This starts with defining a clear strategic vision - setting out the leadership team's strategic intent for the organisation and its various businesses. This then needs to be translated into an agenda for action - not merely a 'strategic plan' but a set of guidelines or a road map clearly setting out where the business needs to go and empowering managers at all levels to make the multitude of decisions that they need to make in the clear understanding of where the business is heading.
